COA  
PROBLEM SOLVING  
SOFTWARE ENGINEERING

## PROJECTS

### THE JUCIY STACK | FULL STACK PROJECT Aug-Sept 2023

I designed and developed a responsive website using **HTML, CSS, and Bootstrap**, with a backend powered by **Servlets and a MySQL database**. Demonstrated strong skills in full-stack web development for effective data-driven web solutions. [View](#)

### NEWMONKEY | REACT-APP October 2023

I developed a dynamic and user-friendly web application using React.js, which leveraged the News API to provide real-time news updates. This project showcases my proficiency in front-end web development and design, as I integrated the Bootstrap framework to ensure a visually appealing and responsive user interface. [View](#)

### TEXTUTILS | REACT-APP September 2023

TextUtils is a word counter and a character counting utility that can be used to manipulate your text however you want. I created this React app using function-based components [View](#)
